

Special Issue

The Biological and Clinical Aspects of Merkel Cell Carcinoma

Message from the Guest Editors

In this Special Issue, we will seek advanced knowledge in both basic and clinical research presented in original articles and comprehensive reviews highlighting the latest advances in MCC. We invite submissions that focus on but are not restricted to the molecular basis of the disease, translational investigations of biomarkers for prospective clinical applications, and innovative diagnostic and therapeutic approaches in MCC.

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief
