

Special Issue

Health Services Research in Cancer Care

Message from the Guest Editors

This Special Issue attempts to highlight this relevant endpoint with the aim of increasing the knowledge on the use, costs, accessibility, quality, organization, financing, and outcomes of health services in cancer care. Researchers and research groups engaged in healthcare or health services in the field of oncology and the cancer care sphere are encouraged to contribute. The articles included in this Special Issue will contribute to identifying both best practices as well as areas needing improvement within cancer healthcare. By addressing gaps and challenges, these contributions will support the goal of ensuring that all individuals receive optimal and suitable cancer care to enhance their health outcomes.

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
