

## Special Issue

# Advances in Malignant Melanoma

### Message from the Guest Editor

During the recent years, several new therapies have been approved for malignant melanoma. However, advanced malignant melanoma is still a deadly disease. In this Special Issue, we will publish reviews and original research articles that provide new insights into the experimental, translational, and clinical field of melanoma.

### Guest Editor

Prof. Dr. Jochen Sven Utikal

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
