

## Special Issue

# The Role of NPM1 Mutation in Acute Myeloid Leukemia

### Message from the Guest Editor

This Special Issue will highlight work that further unravels the molecular mechanisms underlying the pathogenesis of *NPM1*-mutated AML, addresses lingering questions around patient prognostication and longitudinal monitoring, and sheds light on recently described and other novel therapeutic agents that may have unique efficacy in this disease. In this Special Issue, original research articles and reviews within the scope of the topics described above are welcome. I look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
