

Special Issue

Inflammatory Bowel Disease and Cancers

Message from the Guest Editor

Crohn's disease and ulcerative colitis are difficult-to-treat inflammatory bowel diseases (IBD). Uncontrolled inflammation, long-term disease and the onset of complications such as strictures or fistulas can expose patients with IBD to an increased risk of cancer. In recent decades, several efforts have been made to improve screening programs and develop new drugs and new tools for monitoring patients and reducing the risk of cancer. This Special Issue will focus on the association between IBD and cancer, providing a guidance for clinicians to use advanced therapies, improve patient disease control and prevent complications.

Guest Editor

Dr. Ferdinando D'Amico

Department of Gastroenterology and Endoscopy, IRCCS San Raffaele Hospital and Vita-Salute San Raffaele University, 20132 Milan, Italy

Deadline for manuscript submissions

15 October 2025

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
