Peritoneal Surface Malignancies (PSM): The SICO (Italian Society of Surgical Oncology) PSM–Oncoteam Experience, Result Analysis, and Studies' Purpose

Message from the Guest Editors

For many years now, uncertainties on managing peritoneal surface malignancies (PSM) have prompted experts to learn more about how these neoplastic diseases spread. Because many factors make it difficult to understand PSM, a standardized treatment is difficult to identify. Primary and metastatic PSMs differ in their biological behavior, aggressive patterns, and peritoneal spread, often requiring diverse diagnostic and therapeutic approaches. This Special Issue includes a literature review from the PSM Oncoteam of the Italian Society of Surgical Oncology (SICO) describing our long-lasting, multicentric experience in the management and treatment of PSM and the purpose of ongoing studies on behalf of our Oncoteam.

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
