

Special Issue

Targeted Therapy in Sarcoma

Message from the Guest Editors

In this Special Issue, a collection of studies on the current state of preclinical and clinical investigations shall be assembled. Studies that investigate new promising therapeutic targets, pathways, or innovative surgical approaches, as well as submissions that evaluate targeted therapies in combination with immuno-therapy and/or conventional systemic therapies, are encouraged. The aim is to summarize the interdisciplinary nature of sarcoma treatment, with a focus on targeted therapeutic strategies.

Potential topics include, but are not limited to, the following:

- Current and new therapeutic targets in specific sarcoma subtypes;
- Diagnosis and selection of patients with sarcoma for targeted therapy;
- Targeted operative therapy;
- Individual sarcoma therapy;
- Role of the immune system in the setting of targeted therapy;
- Implications of the combination of targeted therapy with immune-therapies and/or conventional chemotherapies.

Guest Editors

Prof. Dr. Thiha Aung

Dr. Anna Duprée

Prof. Dr. Silke Haerteis

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
