New Concepts and Recent Advances in the Management of Skin Cancer

Message from the Guest Editors

Skin cancer is the most common human cancer and its incidence is continuously increasing. The recent discovery of new signaling pathways related with melanoma and keratinocytic carcinomas has transformed the therapeutic landscape of this cutaneous tumors. New diagnostic tools have also been developed, leading to an earlier diagnosis and optimizing the clinical management of these tumours. However, there are still many uncertainties in the field of cutaneous oncology in need of covering for a better understanding and handling of the disease. In this Special Issue, papers on epidemiology, etiopathogenic mechanisms, clinical management and surgical/medical therapy in skin cancer are highly welcome. Researchers are encouraged to submit their findings as either original articles, reviews, or brief communications.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
