

## Special Issue

# Upper Tract Urothelial Carcinoma: Current Knowledge and Perspectives

### Message from the Guest Editors

We are very familiar with urothelial cell carcinoma (UCC), but there has been growing interest in the rarity of UCC that occurs in the upper urinary tract. There have been new guidelines created for this disease space and even growing evidence for treatment regimens. The growth of research and even clinical trials in this disease space continues to enhance the ability of physicians and surgeons to provide the best personalized care for patients. It is important that clinicians are aware of ongoing research and publications within rare disease states such as upper tract urothelial cell carcinoma (UTUC), so we are working on this Special Issue based on just that. We welcome your proposals and research on this topic.

### Guest Editors

Dr. Katie S. Murray

Department of Urology, NYU Langone Medical Center, New York, NY 10003, USA

Dr. Saum Ghodoussipour

Division of Urology, Section of Urologic Oncology, Rutgers Cancer Institute of New Jersey, Rutgers Robert Wood Johnson University Hospital, 195 Albany St., New Brunswick, NJ 08901, USA

### Deadline for manuscript submissions

10 November 2025

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
