## Special Issue

# Surgical Resection and the Multi-Disciplinary Management of Soft Tissue Sarcomas

## Message from the Guest Editors

We are pleased to lead this special effort addressing the surgical and multi-disciplinary management of soft tissue sarcomas. Soft tissue sarcomas comprise a heterogenous group of malignancies of mesenchymal origin. Optimizing the outcomes for this diverse family of tumors with a wide spectrum of biologic aggressiveness requires a multi-disciplinary approach. Exciting developments are under investigation for soft tissue sarcomas, and the intersection of cutting-edge medical, surgical, and radiation therapy with advances in sarcoma biology, the tumor microenvironment, and immunotherapy promises to pave the way for further advances in soft tissue sarcoma outcomes.

## **Guest Editors**

Prof. Robert J. Canter

Department of Surgery, Division of Surgical Oncology, University of California Davis Medical Center, Sacramento, CA 95817, USA

Dr. Steven W. Thorpe

Department of Orthopedic Surgery, University of California, Davis, CA 95817, USA

### Deadline for manuscript submissions

closed (12 January 2023)

## **About the Journal**

## Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

#### **Editor-in-Chief**

Prof. Dr. Samuel C. Mok.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

### **Author Benefits**

## **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.
