

# Special Issue

## Surgery in Metastatic Cancer

### Message from the Guest Editor

In this Special Issue of *Cancers*, up-to-date original research, short communications and comprehensive review articles on all modalities playing a role in the surgical treatment of metastatic cancer will be published. Moreover, the results of preclinical studies with implications on treatment do also qualify for publication. I look forward to your numerous submissions.

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
