Diagnosis and Treatment of Brain Metastases

Message from the Guest Editors

The incidence of brain metastasis is increasing as improvements in systemic therapy lead to increased survival. This provides challenging clinical decisions for patients who are trying to balance the risk of progression of disease with treatment-related side effects, and it requires management strategies from diverse multidisciplinary teams. Improvements in systemic therapy with increasing activity in the brain allows for individualized care to better guide the use of local therapies and systemic therapy. Here, we discuss treatment strategies including targeted therapies for patients with actionable mutations, immunotherapy, whole-brain radiation therapy, radiosurgery, surgery/laser interstitial thermal therapy, and modern clinical trials. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
