

Special Issue

p53 Family in Cancer: How Close Are We to the Clinic? (2nd Edition)

Message from the Guest Editors

This Special Issue is a continuation of our previous one, entitled "p53 Family in Cancer: How Close Are We to the Clinic?"

(https://www.mdpi.com/journal/cancers/special_issues/53cc). With this Special Issue, we are pleased to invite you to submit your work describing recent advances in this field, which may pave the way for more effective therapeutic strategies against cancer. In this issue, original research articles and reviews are welcome. The research areas may include (but are not limited to) basic and more (pre)clinical aspects of the function, biology, and pharmacology of the p53 family. We look forward to receiving your contributions.

Guest Editors

Dr. Lucília Saraiva

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
