

Special Issue

Surgery in Metastatic Cancer (2nd Edition)

Message from the Guest Editor

This Special Issue is the second edition of a previous one, entitled "*Surgery in Metastatic Cancer*" (https://www.mdpi.com/journal/cancers/special_issues/Surgery_Metastatic_Cancer). Until recently, in metastatic cancer, only palliative measures such as systemic therapy, radiation, or best supportive care could be applied. In recent decades, however, surgery in metastatic cancer stages by metastasectomy and/or removal of the primary tumor in the metastatic stage has been shown to prolong survival in various cases and might even be able to cure the disease in selected situations. In this Special Issue of *Cancers*, up-to-date original research, short communications, and comprehensive review articles on all modalities related to the surgical treatment of metastatic cancer will be published. Moreover, the results of preclinical studies with implications for treatment also qualify for publication. I look forward to your numerous submissions.

Guest Editor

Prof. Dr. Ulrich Ronellenfitsch

Department of Visceral, Vascular and Endocrine Surgery, University Medical Center Halle (Saale), Martin-Luther-University Halle-Wittenberg, Halle (Saale), Germany

Deadline for manuscript submissions

30 November 2025

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
