

Special Issue

Feature Papers in Section “Cancer Survivorship and Quality of Life” in 2024–2025

Message from the Guest Editor

Cancer survivors are now living longer thanks to a better understanding of cancer biology and the development of new treatment regimens. However, they continue to face the long-term consequences of this disease and its treatment. Understanding the mechanisms of survivorship can help improve the quality of life of cancer survivors. Studies seeking to identify the mechanism that prevent and control adverse diagnosis- and treatment-related outcomes which impact the quality of life of cancer patients will be considered. We are pleased to present this Special Issue dedicated to the latest research and advancements in cancer survivorship and the quality of life.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
