

Topical Collection

Women's Cancers Risk: Breast Cancer, Ovarian Cancer and Endometrial Cancer

Message from the Collection Editor

Over the last decade, there have been significant advances and developments in our understanding of factors affecting women's cancer risk, our ability to identify individuals at increased risk and risk stratify populations, as well as in improving strategies for targeted screening and prevention. We welcome submissions that cover any relevant topics in the areas of cancer risk, genetic testing, risk management, screening, prevention and associated health economics of women's cancers, including breast, ovarian and endometrial cancers.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
