Molecular and Image Diagnosis in Endometrial Cancer 2024

Message from the Guest Editor

Over the past decade, we have seen rapid advancements in molecular biology and imaging technology, leading to significant improvements in the diagnosis of endometrial cancer. Integrating these innovative diagnostic techniques is increasingly informing the decision-making process in clinical practice, leading to better patient outcomes. This Special Issue explores and discusses the latest innovations, trends, challenges, and solutions in molecular and image diagnosis in endometrial cancer. We are particularly interested in original research articles, systematic reviews that address these issues. Still, submissions are not limited to topics such as the discovery of new biomarkers, development of novel imaging techniques, clinical validation of molecular and imaging diagnostics, and integration of these tools into current management.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
