

Special Issue

Breast Cancer

Message from the Guest Editor

Current topics in breast cancer include the novel imaging in cancer, the minimal invasive operation, and tailoring therapeutic approach on the basis of cancer biology. Regarding the imaging, possible topics of interest may include the functional imaging on PET, molecular imaging on targeting molecules. Regarding surgery, possible topics of interest may include sentinel lymph node biopsy, the minimal surgery after chemotherapy and/or endocrine therapy, the plastic surgery. Regarding of cancer biology, possible topics of interest may include cancer stem cell, EMT, circulating tumor cell, and disseminated tumor cell. In clinical practice, we may interest in biomarkers predicting prognosis and therapeutic effect, chemotherapy and endocrine therapy on the basis of the intrinsic subtype, and immunotherapy (i.e. cancer vaccine, transferring CTL). Tomoharu Sugie, MD

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
