

Special Issue

E-cadherin Mutations in Cancer

Message from the Guest Editors

We are pleased to introduce you a new Special Issue with the topic “E-Cadherin Mutations in Cancer”. Due to the increased mutation rate in patients with or without gastric cancer, it is urgent to determine new indications for screening strategies in accordance with the family history of patients, gastric cancer incidence, and its related geographical area. In this Special Issue, we will publish reviews and original research that provide new insights into the role of CDH1 germline mutations in gastric cancer, with a special attention on missense mutations.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
