## **Special Issue**

# The Role of Lifestyle-Related Factors in Cancer Survivorship

## Message from the Guest Editors

In this Special Issue, researchers are invited to contribute their most recent results on lifestyle in relation to cancer outcomes, and on changes in lifestyle and cancer outcomes. Contributions may range from observational studies to intervention studies to systematic reviews. Examples are papers describing changes in adherence to the cancer prevention recommendations after diagnosis for a specific group of cancer survivors; papers reporting on the association of lifestyle-related factors with quality of life, survival or other clinical outcomes in cancer survivors; papers on the effect of lifestyle interventions on quality of life, clinical or other health-related outcomes in cancer survivors.

## **About the Journal**

## Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

#### **Editor-in-Chief**

Prof. Dr. Samuel C. Mok.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

### **Author Benefits**

## **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.
