Views and Perspectives of Glioma Surgery: A Special Issue from Different Fluorescence-Guided Resections to Different Optics

Message from the Guest Editor

New techniques have advantages and disadvantages which should be mentioned and discussed in this Special Issue. Fluorescence-guided surgery has been described to help to differentiate between glioma and normal tissue. Despite the established five-aminolevulinic acid (5-ALA) fluorescence-guided surgery, other techniques are also valuable, like the use of yellow fluorescein sodium. Furthermore, we have excellent microscopes. Nonetheless, exoscopes find entry into neurosurgery with different positions, angles, perspectives, resulting in advantages and disadvantages. We will be happy to receive articles for this Special Issue focusing on two topics: fluorescence-guided surgery and exoscopic and/or microscopic surgery.

Guest Editor

Prof. Dr. Juergen Konczalla

Department of Neurosurgery, Goethe University Hospital Frankfurt, Schleusenweg 2-16, 60528 Frankfurt, Germany

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
