Special Issue

Towards New Promising Discoveries for Lung Cancer Patients: A Selection of Papers from the First Joint Meeting on Lung Cancer of the FHU OncoAge (Nice, France) and the MD Anderson Cancer Center (Houston, TX, USA)

Message from the Guest Editors

This special Issue of Cancers will consist of selected papers from the First Annual Joint Meeting on Lung Cancer of the FHU OncoAge (www.oncoage.org, University of Côte d'Azur) and the MD Anderson Cancer Center (MDACC, University of Texas, Houston, TX, USA), taking place in Nice (France), on 6-7 September 2018. A partnership with research groups, scientists and physicians between the FHU OncoAge and the MD Anderson Cancer Center has been created to work in the context of age-related lung cancer and non-tumor lung diseases because both age-related chronic diseases and cancer share genomic, immune, metabolic and other biological abnormalities. Deciphering the clinical features, the biological markers, the environmental factors that are shared between chronic age-related lung pathologies and lung cancers will lead to the development of rational new clinical practices, including the validation of surrogate biomarkers of predictive response to new therapies, but also the validation of active preventive strategies.

Guest Editors

Prof. Dr. George A. Calin

Prof. Dr. Paul Hofman

Prof. Dr. Sendurai A. Mani

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
