Obesity as a Risk Factor for Cancer

Message from the Guest Editors

The worldwide increase in obesity constitutes a major medical challenge, with high BMI (body mass index) being an important risk factor for disease. In addition to cardiovascular disorders and development of diabetes, obesity increases the risk for developing cancer and several mechanisms have been proposed to explain this association. This Special Issue will highlight the role of obesity as a risk factor for cancer, addressing the molecular mechanisms on the role of obesity in tumor initiation, maintenance and recurrence, cancer intrinsic metabolic alterations and tissue crosstalk with the tumor in obese conditions. The collected reviews will, thereby, shine a light on future therapeutic strategies targeting metabolic cancer etiologies.

Guest Editors

Prof. Dr. Stephan Herzig
Dr. Götz Hartleben
Dr. Mauricio Berriel Diaz

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
