

Topical Collection

New Discoveries and Future Trend for Prostate Cancer Research and Treatment

Message from the Collection Editor

In this Special Issue, we will cover the following research topics:

- the biological significance of key molecules that contribute to prostate cancer progression and metastasis and novel approaches to their molecular targeting;
- the role of the tumor microenvironment (tumor-stromal interaction) in promoting prostate cancer progression and recurrence;
- the discovery of novel and reliable prostate cancer biomarkers (diagnostic and prognostic);
- updates on therapeutic approaches, clinical trials, and FDA-approved drugs for the treatment of prostate cancer; and
- prostate cancer prevention and community awareness.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
