

Special Issue

Prognostic Factors after Surgery for Salivary Gland Cancer; What's New, and What's Next?

Message from the Guest Editors

This Special Issue aims to stimulate discussion about news in parotid surgery, trying to provide evidenced-based data focused on new prognostic factors in: Parotid surgery (open, endoscopic, and robotic approach); Adjuvant radio- and chemotherapy; Facial nerve function after parotid surgery; Genetic and molecular mechanisms; Latest advances in robotic surgery, tissue regeneration, and liquid biopsy.

Guest Editors

Prof. Angelo Camaioni
Dr. Pietro De Luca
Prof. Dr. Francesco Antonio Salzano

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
