## Women's Special Issue Series: Oncology

### Message from the Guest Editor

We are pleased to announce a Special Issue entitled "Women's Special Issue Series: Oncology" to celebrate and highlight the achievements of women in the oncology research area. For this Special Issue, we are seeking the submission of original research articles and comprehensive review papers from all oncology-related fields. The papers in this Special Issue will be published via our open-access platform after a thorough peer review. The purpose of our Special Issue is to promote and celebrate the achievements of women in science. While we encourage contributions where the lead author is female scientist, contributions may come from all genders. We welcome submissions from all authors, irrespective of gender identity. We look forward to receiving your excellent work.

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
