

Special Issue

Advances in Bilayer Graphene

Message from the Guest Editors

In this Special Issue in C, the Journal of Carbon Research, we invite authors to submit their recent works on the subject of bilayer graphene. We address this invitation to a wide range of researchers whose works concern bilayer graphene material and bilayer graphene-based compounds, heterostructures, and quantum dots. Research papers from all areas of physics are welcome in this Special Issue, including quantum information. Special attention will be paid to works which spread new insights into the technological applications of this material.

Guest Editors

Dr. Vardan Apinyan

Institute of Low Temperature and Structure Research, Ul. Okólna 2, 50-422 Wrocław, Poland

Prof. Dr. Tadeusz K. Kopeć

Condensed Matter Theory Group, Institute of Low Temperature and Structure Research, Polish Academy of Sciences, str. Okólna 2, 50-422 Wrocław, Poland

Deadline for manuscript submissions

closed (30 April 2024)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Craig E. Banks
Faculty of Science and Engineering, Manchester Metropolitan
University, Chester Street, Manchester M1 5GD, UK

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, CAPlus /
SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Environmental Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 24.3 days after
submission; acceptance to publication is undertaken in 3.9
days (median values for papers published in this journal in
the first half of 2025).
