

Special Issue

Carbon-Based Polymer Composites: Synthesis, Processing, Characterization and Applications

Message from the Guest Editors

This Special Issue focuses on the latest developments in carbon-based polymer composites, a rapidly evolving field at the intersection of materials science and engineering. We aim to cover a broad range of topics related to the synthesis, processing, and characterization of these composites, as well as their diverse applications. This Special Issue will bring together original research articles and reviews highlighting advances in carbon-based materials such as graphene, carbon nanotubes, and carbon fibers, and their integration into polymer matrices. We seek contributions that explore innovative methods for synthesizing these composites, novel processing techniques to enhance their properties, detailed characterization to understand their structure–property relationships, and their applications in various fields such as electronics, aerospace, automotives, and environmental technology. This Special Issue aims to provide a platform for researchers, engineers, and scientists to share their findings, discuss challenges, and present future directions in the field of carbon-based polymer composites.

Guest Editors

Prof. Dr. Chi-Hui Tsou

College of Materials Science and Engineering, Sichuan University of Science and Engineering, Zigong 643000, China

Prof. Patrizia Savi

Department of Electronics and Telecommunications (DET), Politecnico di Torino, 10129 Turin, Italy

Deadline for manuscript submissions

closed (25 March 2025)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Craig E. Banks
Faculty of Science and Engineering, Manchester Metropolitan
University, Chester Street, Manchester M1 5GD, UK

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, CAPlus /
SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Environmental Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 24.3 days after
submission; acceptance to publication is undertaken in 3.9
days (median values for papers published in this journal in
the first half of 2025).
