

# Special Issue

## Batteries: Recent Advances in Carbon Materials 2017

### Message from the Guest Editor

This Special Issue is the continuation of our Special Issue “Batteries: Recent Advances in Carbon Materials” ([http://www.mdpi.com/journal/carbon/special\\_issues/batteries-carbon-materials](http://www.mdpi.com/journal/carbon/special_issues/batteries-carbon-materials)). We are soliciting contributions to this Special Issue. The topic will be carbon materials in batteries. Suggested topics may include: lithium cathodes and anodes, and electrodes for redox flow batteries. Other battery-related topics will be considered with the condition that carbon materials be included as the major topic.

### Guest Editor

Prof. Dr. I. Francis Cheng

Department of Chemistry, University of Idaho, Moscow, ID 83844-2343, USA

### Deadline for manuscript submissions

### Author Benefits

#### High Visibility:

indexed within ESCI (Web of Science), Scopus, CAPlus /  
SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q2 (Environmental Science (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 24.3 days after  
submission; acceptance to publication is undertaken in 3.9  
days (median values for papers published in this journal in  
the first half of 2025).
