

# Special Issue

## Graphene-Reinforced Polymer Nanocomposites

### Message from the Guest Editor

The use of graphene and graphene-related materials as reinforcements in polymer nanocomposites has attracted a great deal of attention over the last few years, from both academia and industry, due to their unique properties. The produced polymer nanocomposites usually display a significant enhancement of their ultimate properties compared to other nanofillers, such as nanotubes or nanoclays, and show great promise for use in structural and functional applications. This Special Issue aims to provide a forum for the publication of original research/review articles on all aspects of synthesis, characterization and applications of graphene-based nanocomposites. Authors are encouraged to highlight the potential applications of the produced composites in a number of areas including automotive and aerospace, electronics, energy storage and others. As a , I hope that this Special Issue will be of interest for the majority of *C – Journal of Carbon Research* readers and will serve as a stimulus to further progress research in the field of graphene-based polymer nanocomposites.

### Guest Editor

Dr. Dimitrios G. Papageorgiou

School of Engineering and Materials Science, Queen Mary University of London, Mile End Road, London E1 4NS, UK

### Deadline for manuscript submissions

closed (31 January 2019)

# About the Journal

## Message from the Editor-in-Chief

---

### Editor-in-Chief

Prof. Dr. Craig E. Banks  
Faculty of Science and Engineering, Manchester Metropolitan  
University, Chester Street, Manchester M1 5GD, UK

---

### Author Benefits

#### High Visibility:

indexed within ESCI (Web of Science), Scopus, CAPlus /  
SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q2 (Environmental Science (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 24.3 days after  
submission; acceptance to publication is undertaken in 3.9  
days (median values for papers published in this journal in  
the first half of 2025).
