

an Open Access Journal by MDPI

## Featured Papers in Electrochemistry and Electrocatalysis in China

Guest Editors:

## Prof. Dr. Yuxin Tang

College of Chemical Engineering, Fuzhou University, Fuzhou 350116, China

## Prof. Dr. Jianping Yang

Department of Inorganic Nonmetallic Materials, College of Materials Science and Engineering, Donghua University, Shanghai, China

## The detailed research areas include the following:

**Message from the Guest Editors** 

- Developing energy conversion and storage systems with high energy density, high power density, high
- stability and high safety.
  Design, preparation and application of electrocatalysts with high activity, high selectivity.
- New concepts and insights into energy storage or conversion mechanisms for electrochemistry and electrocatalysis.

**Special**sue

and long lifetime for specific reactions.

Deadline for manuscript submissions: closed (20 September 2023)
