## Sustainable and Environmental Catalysis

Guest Editors:

**Dr. Raffaele Cucciniello**

Department of Chemistry and  
Biology, University of Salerno, Via  
Giovanni Paolo II, 132, 84084  
Fisciano, SA, Italy

**Dr. Daniele Cespi**

Head Environmental and  
Energetic Studies (Line of  
Business), NIER Ingegneria SpA,  
Via C. Bonazzi 2 - 40013 - Castel  
Maggiore, Bologna, Italy

**Dr. Tommaso Tabanelli**

Dipartimento di Chimica  
Industriale "Toso Montanari",  
Alma Mater Studiorum Università  
di Bologna, Viale Risorgimento 4,  
40136 Bologna, Italy

### Message from the Guest Editors

Over the last few decades, an increasing amount of interest from academia and industry has been devoted to the application of the 12 Principles of the Green Chemistry in order to pursue the Sustainable Development Goals (SDGs). They are based on the fundamental idea of guiding research and innovation toward more environmentally-friendly practices and solutions. This Special Issue, entitled Sustainable and Environmental Catalysis, will collect original research papers, reviews, short communications, and commentaries reflecting the state-of-the-art and future applications in this field, with particular emphasis on the adoption of green chemistry principles at both a laboratory and industrial scale.

Deadline for manuscript  
submissions:
