## Bio-Inspired Materials: Learning from the Nature to Improve the Catalyst

Guest Editors:

**Dr. Jesús Hidalgo-Carrillo**

**Prof. Dr. Alberto Marinas  
Aramendía**

**Prof. Dr. Francisco José  
Urbano Navarro**

### Message from the Guest Editors

This Special Issue aims to cover current experimental studies in the field of bio-inspired materials synthesis, their characterization, and application in heterogeneous catalysis. Recreating nature or life itself is, perhaps, the best way to understand them.

Deadline for manuscript  
submissions:

**closed (30 April 2021)**
