Special Issue

Advances in Carbon-Based Catalysts

Message from the Guest Editors

This Special Issue is devoted to exploring new advances in synthesis methods, characterization, and applications for carbon-based catalysts. The aim is to compile the current state of knowledge and shows the path of current research in the field of carbon-based catalysts. Mainly, complete experimental studies of synthesis, characterization, and evaluation of catalytic activity will be of greater interest, focusing on a deep cause–effect study of the preparation method, the physical–chemical properties of the prepared catalysts, and their catalytic activity in interesting processes.

Guest Editors

Dr. M. A. Alvarez-Montero

Departamento de Ingeniería Química, Facultad de Ciencias, Campus de Cantoblanco, Universidad Autónoma de Madrid, C/Francisco Tomás y Valiente, 7, 28049 Madrid, Spain

Dr. Luisa Maria Gomez-Sainero

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn
Carl R. Ice College of Engineering, Kansas State University, Manhattan, KS, USA

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:
JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
