# Innovative Catalytic and Photocatalytic Systems for Environmental Remediation, 2nd Edition

### Message from the Guest Editors

This is the second edition of the Special Issue titled “Innovative Catalytic and Photocatalytic Systems for Environmental Remediation”. In this new edition, we will continue to showcase the latest advancements in catalytic and photocatalytic methods and systems for environmental remediation. We welcome research papers and comprehensive review articles that focus on the synthesis and characterization of novel nanomaterials or nanocomposites, as well as their applications in the catalytic removal of pollutants from liquid and gaseous phases. Additionally, we invite submissions on innovative structured catalysts designed for various applications in this Special Issue.
