

## Special Issue

# Catalysts for Mobile Source: Low-Carbon and Pollution Emission Control

### Message from the Guest Editors

This Special Issue collects the research results of catalytic materials currently used to solve the problems of carbon dioxide and pollutant emissions from mobile sources, and explores the key research directions in the next stage, being committed to promoting the development of catalysis science in the field. It involves various aspects of catalyst design, preparation, characterization, reaction mechanisms, and deactivation mechanisms, including, but not limited to, catalysts used to address the main pollutants such as HC, CO, NO<sub>x</sub>, and PM, catalysts used to address unconventional pollutants such as CH<sub>4</sub>, N<sub>2</sub>O, NH<sub>3</sub> and NMHC, electrocatalysts and plasma-assisted catalysts, low-temperature adsorption materials, etc. The scope of this Special Issue also includes modeling and simulation based on the catalysts, collaborative control technology for mobile source pollution and carbon reduction, and ultra-low emission after-treatment technology.

### Guest Editors

Dr. Zhenguo Li

National Engineering Laboratory for Mobile Source Emission Control Technology, China Automotive Technology & Research Center, Tianjin 300300, China

Dr. Xiaodong Wu

School of Materials Science and Engineering, Tsinghua University, Beijing 100084, China

### Deadline for manuscript submissions

closed (30 November 2023)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Keith Hohn  
Carl R. Ice College of Engineering, Kansas State University, Manhattan,  
KS, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

##### Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science )

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
