

Special Issue

TiO₂-Based Materials for (Photo)Catalysis II

Message from the Guest Editors

This Special Issue is a continuation of the previous Special Issue “TiO₂-Based Materials for (Photo)Catalysis”. In recent years, oxide-based photocatalysts have emerged as crucial materials to face environmental and energy issues. The photocatalytic process involves the creation of electron/hole pairs and their subsequent transfer to the particle surface to perform the desired reduction and oxidation processes. The key requirement to obtain efficient photocatalysts is to engineer the band edge positions to produce the appropriate redox species and to efficiently absorb solar radiation. The present Special Issue of *Catalysts* aims to showcase the current state of the art in the synthesis, characterization, and modeling of oxide-based materials employed in advanced photocatalytic applications, including CO₂ reduction, water splitting, and environmental remediation.

Guest Editors

Dr. Giuseppina Pinuccia Cerrato

Associate Professor, Department of Chemistry, Università degli Studi di Torino, Via Pietro Giuria, 7, 10125 Torino, Italy

Prof. Dr. Claudia Letizia Bianchi

Department of Chemistry, University of Milan, Via Golgi 19, 20133 Milano, Italy

Dr. Lorenzo Mino

Department of Chemistry, University of Torino, Torino, Italy

Deadline for manuscript submissions

closed (31 March 2023)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn
Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
