

Special Issue

Topical Advisory Panel Members' Collection Series: Biomass Catalytic Conversion

Message from the Guest Editor

The field of biomass catalytic conversion is of paramount importance as the world seeks sustainable and renewable energy sources and solutions to environmental challenges. Biomass, as an abundant and renewable resource, holds great potential for the production of valuable chemicals and fuels. This Special Issue, titled "Topical Advisory Panel Members' Collection Series: Biomass Catalytic Conversion", will provide a platform to showcase the latest advancements and research in this critical area. We are looking to collect both original research articles and review papers. This Special Issue's scope encompasses various aspects of biomass catalytic conversion, including innovative catalytic systems, process optimization, and in-depth mechanistic studies. We welcome submissions from researchers and scholars worldwide, encouraging the sharing of diverse perspectives and cutting-edge findings to promote further progress in this field and contribute to the development of sustainable technologies.

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn

Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
