

Special Issue

Advanced Nanomaterials for Emerging Contaminants Removal in the Environment and Sustainable Development

Message from the Guest Editors

Potential topics of this Special Issue include, but are not limited to, the following: the development of nanostructured photocatalytic materials for environmental remediation and green growth; the development of catalytic nanomaterials and their applications in green chemical processes; the development of adsorbent materials for environmental pollution control; the development of nanocomposite and hybrid-nanocomposite materials, multifunctional materials, and their applications in environmental pollution control and green industries; the development of advanced materials for effective, environmentally friendly, and sustainable agriculture in accordance with low carbon agriculture orientation; and the development of advanced materials for water splitting and CO₂ conversion. You are welcome to visit the [website](#), submit the [abstract](#), and [full paper](#). Any questions please feel free to contact the managing editor Angela Xue (angela.xue@mdpi.com). We look forward to receiving the contribution from you!

Guest Editors

Dr. Pham Thi Huong

Department of Materials Science and Engineering, Gachon University,
1342 Seongnam-daero, Seongnam 13120, Republic of Korea

Dr. Minh Viet Nguyen

Key Laboratory of Advanced Materials for Green Growth, VNU
University of Science, Ha Noi, Vietnam

Deadline for manuscript submissions

closed (30 June 2023)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn

Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
