

Special Issue

Advanced Catalysis for Green Fuel Synthesis and Energy Conversion, 2nd Edition

Message from the Guest Editors

The considerable growth in the demand for energy and limited fossil fuel resources, together with environmental concerns, are major threats to the sustainable development of human beings. The utilization of green energy resources is considered to be a promising solution to this challenge. Catalysis plays a crucial role in the production of clean energy and its processes. Advances in low-cost, efficient, and eco-friendly catalysts are more important than ever.

This Special Issue, entitled “Advanced Catalysis for Green Fuel Synthesis and Energy Conversion, 2nd Edition”, will mainly comprise research on the state of the art of novel nanoscale functional materials and aims to provide an in-depth understanding of advanced catalysis for green fuel synthesis and next-generation energy conversion applications. All studies (experimental and theoretical) within the scope of this Special Issue, including original research and review articles, short communications, and perspective articles, are welcome for submission.

Guest Editors

Prof. Dr. Lili Lin

Institute of Industrial Catalysis, State Key Laboratory of Green Chemistry Synthesis Technology, College of Chemical Engineering, Zhejiang University of Technology, Hangzhou 310014, China

Prof. Dr. Siyu Yao

Key Laboratory of Biomass Chemical Engineering of Ministry of Education, College of Chemical and Biological Engineering, Zhejiang University, Hangzhou 310027, China

Deadline for manuscript submissions

closed (15 August 2024)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn

Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
