

Special Issue

Theory-Guided Electrocatalysis and Photocatalysis

Message from the Guest Editors

The present Special Issue of *Catalysts* is aimed at presenting the recent development of theory-guided electrocatalysis and photocatalysis, and researchers working in the field are cordially invited to contribute. Original articles dealing with electrocatalyzing and photocatalyzing CO₂ reduction, N₂ reduction, oxygen reduction/revolution, and hydrogen revolution reactions by means of theoretical computations are welcome.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
