

## Special Issue

# Catalytic Reaction for High-Temperature and Low-Emission Combustion Technologies

### Message from the Guest Editors

Submissions to this Special Issue on “Catalytic Reaction for High-Temperature and Low-Emission Combustion Technologies” are welcome in the form of original research papers or short reviews that reflect the state of research in the combustion field on the following topics: characterisation on pyrolysis due to the catalytic reaction in oxy-fuel co-combustion; clarification of synergistic reactions in oxy-fuel co-combustion; ash sintering/slagging/fouling/deposition and tube corrosion in oxy-fuel co-combustion.

### Guest Editors

Dr. Baiqian Dai

Dr. Xiaojiang Wu

Dr. Lian Zhang

### Deadline for manuscript submissions

closed (30 June 2022)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Keith Hohn

Carl R. Ice College of Engineering, Kansas State University, Manhattan,  
KS, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

##### Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science )

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
