

Special Issue

Catalysis and Carbon-Based Materials

Message from the Guest Editors

Carbon catalysts and materials, the focus of the present Special Issue, are very important in many fields of science, engineering and technology, which is why papers reporting on “carbon materials” are published in journals in a wide range of specialties. Even when targeting a specific subject (e.g., the synthesis of carbon nanomaterials or activated carbon applications), a large number of scientific papers are published. The purpose of this Special Issue is to provide readers with the latest research progress and state-of-the-art technologies developed in the manufacture, properties and applications of carbon materials in catalysis. We would like to express our wholehearted thanks to all authors who consider participating in this Special Issue. Their willingness to share their knowledge is greatly appreciated. We would also like to extend our gratitude to all assistants who helped to produce this Special Issue.

Guest Editors

Dr. Jose Luis Diaz de Tuesta

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn

Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
