

## Special Issue

### Selected Papers from Elitecat 2019, 1-5 July 2019, Villeurbanne, France

#### Message from the Guest Editors

The present Special Issue will feature the works presented at Elitecat 2019, as well as additional contributions in the field of heterogeneous catalysis, ranging from synthesis and characterizations to catalytic applications. In detail, the Special Issue will cover the following topics: (i) new synthetic strategy and chemical processes, (ii) green and sustainable catalytic processes and reaction media, (iii) selective catalytic reactions for the synthesis of fine chemicals, (iv) industrial catalytic processes for environmental catalysis and energy production, and (v) new kinetic models for catalytic data fitting. Authors with expertise in any of the above topics of catalysis are cordially invited to submit their manuscripts to this Special Issue of *Catalysts*. Significant full papers and review articles are very welcome.
