# Gold, Silver and Copper Catalysis

### Message from the Guest Editor

Catalysis by gold, silver, and copper continues to increase. This Special Issue of *Catalysts*, entitled “Gold, Silver, and Copper Catalysis” aims to cover all aspects of the use of these fascinating metals in catalysis for diverse reactions. This Special Issue deals with synthesis of gold-, silver-, and copper-based catalysis, their characterization through several techniques and catalytic use, in heterogeneous and homogenous catalysis, and also their potential environmental and industrial applications.
