Chemistry and Heterogeneous/Homogeneous Catalysis

Message from the Guest Editors

We have the honor to invite you to take part at the 28th Annual Meeting of the Slovenian Chemical Society, which will be held from 21 to 23 September 2022 at the Grand Hotel Bernardin Convention Center in Portorož-Portorose, Slovenia. More information about the conference can be found at <https://skd2022.chem-soc.si/en/>. The Organizing Committee of the 28th Annual Meeting of the Slovenian Chemical Society and the open access journal *Catalysts* (MDPI) have joined forces to produce a Special Issue that will be publishing research and review articles covering various aspects of heterogeneous and homogeneous catalysis and other related areas, such as:

- Synthesis and characterization of catalysts;
- Two- and multi-phase catalytic reactions;
- Photocatalysis;
- Electrochemistry and electrocatalysis;
- Catalysis for energy sustainability;
- Catalysis for the environmental protection;
- Enzymatic catalysis;
- Industrial applications of catalysis.

Conference participants/authors with expertise in catalytical processes are cordially invited to submit their manuscripts to this Special Issue of *Catalysts*. The submitted articles can cover experimental and theoretical approaches.
