

## Special Issue

# Rare Metal Catalysis: From Synthesis to Sustainable Applications

### Message from the Guest Editors

This Special Issue is devoted to the synthesis of rare earth catalysts and their applications in such sustainable fields as environment protection, energy generation, and the production of chemicals. The main attention will be focused on comprehensive experimental studies of synthesis, characterization, and evaluation of catalyst performance in areas such as, but not limited to, CO oxidation, NO reduction, N<sub>2</sub>O decomposition, NH<sub>3</sub> partial oxidation, NH<sub>3</sub> synthesis, NH<sub>3</sub> decomposition, water-gas-shift (WGS), CH<sub>4</sub> conversion, CO<sub>2</sub> reduction, hydrogen evolution reaction (HER), and oxygen reduction reaction (ORR). The proposed topics include, but are not limited to, the following:

- Preparation of rare earth catalysts;
- Characterization of rare earth catalysts;
- Rare earth catalysis in environment protection (CO oxidation, NO reduction, VOCs elimination and et al.);
- Rare earth catalysis in energy generation (CO<sub>2</sub> reduction, H<sub>2</sub> generation);
- Rare earth catalysis for chemicals production.

---

### Guest Editors

Prof. Dr. Changjin Tang

Prof. Dr. Qiulin Zhang

Dr. Wenxiang Tang

Dr. Jixing Liu

Dr. Haidi Xu

---

### Deadline for manuscript submissions

closed (30 June 2025)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Keith Hohn  
Carl R. Ice College of Engineering, Kansas State University, Manhattan,  
KS, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

##### Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science )

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
