

Special Issue

Sustainable and Environmental Catalysis

Message from the Guest Editors

Over the last few decades, an increasing amount of interest from academia and industry has been devoted to the application of the 12 Principles of the Green Chemistry in order to pursue the Sustainable Development Goals (SDGs). They are based on the fundamental idea of guiding research and innovation toward more environmentally-friendly practices and solutions. This Special Issue, entitled Sustainable and Environmental Catalysis, will collect original research papers, reviews, short communications, and commentaries reflecting the state-of-the-art and future applications in this field, with particular emphasis on the adoption of green chemistry principles at both a laboratory and industrial scale.

Guest Editors

Dr. Raffaele Cucciniello

Dr. Daniele Cespi

Dr. Tommaso Tabanelli

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn

Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
