

Special Issue

Women in Catalysts

Message from the Guest Editors

Given the variety of fields in which it is involved, catalysis is a transverse subject. Its field ranges from inorganic, organo-metallic, organic and physical chemistries, chemical engineering, surface science, solid-state chemistry, and theoretical chemistry. Many interconnections between two or more of these fields are involved in the design of a catalyst or in the tuning of a catalytic process. This Special Issue aims to cover different facets of catalysis. We decided to use research led by women as the main thread of discussion. This topic was chosen not because we think that women need to be treated as a special scientist category, but because we want to give insight into the central issues of catalysis from a variety of perspectives. We think that both men and women contribute in particular ways to the developments and achievements in the field. This issue wants to see the perspective of women who, thanks to their feminine *savoir faire*, surely make catalysis more appealing!

Guest Editors

Dr. Leonarda Liotta

Institute of Nanostructured Materials, Palermo Research Division, CNR - ISMN, Via Ugo La Malfa 153, 90146 Palermo, Italy

Dr. Valeria La Parola

Istituto Per Lo Studio Dei Materiali Nanostrutturati, Rome, Italy

Deadline for manuscript submissions

closed (30 November 2021)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn

Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
