

Special Issue

Advances in Applied Electrocatalysis

Message from the Guest Editors

This Special Issue aims to cover advances in applied electrochemistry with molecular and heterogeneous catalysts for water oxidation, organic electro-oxidation, hydrogen evolution, and CO₂ reduction. We invite authors to contribute to this issue with not only examples of new catalyst design, but also research involving device engineering, reaction conditions, computational studies, and characterization techniques that will assist the practical integration of electrocatalytic devices in future work.

Guest Editors

Dr. Charles E. Creissen

College de France, Paris, Île-de-France, France

Dr. Souvik Roy

School of Chemistry, University of Lincoln, Lincoln LN6 7DL, UK

Deadline for manuscript submissions

closed (31 December 2021)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn

Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
